** All products are packaged in a Jewel Case. (Full Install/User-Install Rights)*

Networkable Administration of the Scalable Interfaces

While Canvastic is installed locally as most graphics rich programs are, the administration of the scalable interfaces can easily be administered over the network, with the preferences stored on the network server. With the adjustment of just one file, the Canvastic environment for students all over the school can be changed. Or, any workstation can be individually customized. Students can save their work to network servers or locally.
